

January 2, 2018

Dear Valuable Customers:

Season's Greetings and our best wishes for 2018.

I am pleased to announce that, effective January 1, 2018, Streamware-Components OHG is integrated with Nippon Oil Pump Co. Ltd. (NOP), German Branch.

Expecting to complete its 100 years in 2019, NOP has a long history of working with the Machine Tool industry, especially with its Trochoid® pumps and hydraulic motors. Most recently, NOP has developed the NOP® Coolant Unit (YTH / VORTEX), a revolutionary coolant pump with built-in filtration, as a key enabler for an efficient, and self-maintaining coolant system.

Streamware-Components OHG has been a leading name in supply of complete coolant system for machine tools and caters to renowned Machine Tool builders and end-user customers in Germany.

By incorporating the NOP® Coolant Unit, which integrates pumping and filtration, into Streamware's comprehensive knowledge of the coolant system, we aim to offer an innovative approach to how coolant can be effectively treated for machine tools.

Even though the ownership of Streamware may have changed hands, we assure you that the combined business will not only continue to offer you the same level of professional service and quality products but will strive to further improve them to the next level by addressing your daily needs.

To further ensure continuity, Mr Thomas Schmiderer - Geschäftsführer, Streamware-Components OHG, has agreed to be associated with the business as an Advisor during the next 12 months.

NOP's corporate motto, "**HAJIMARI TSUKURU HITO**", which consists of three Japanese words that embody our corporate spirit, applies to our objectives in forming our combined business.

- HAJIMARI (Initiation):
Lead the market with our innovative thinking, reflecting our customers' needs
- TSUKURU (Create):
Create value, delivering products and services for our customers
- HITO (People):
Develop ourselves as true professionals, together with our customers

I sincerely thank you for your business and patronage and look forward to serving you into the future.

Toshihiko Shirabe
Representative Director & President
